INTEGRATED 3D HOLOGRAPHIC DISPLAY SYSTEM

HYPERVSN is a fully, integrated system that allows you to create, manage and display 3D content, perceived as holograms floating in mid-air. The system uniquely combines the revolutionary HYPERVSN Device with the scalability of proprietary Pro Management Software into jaw dropping 3D visuals. The world around us is in 3D, your branding solutions should be too.

## HYPERVSN Device

Groundbreaking 3D holographic display, generated by four individual LED rays to produce awe-inspiring 3D visuals that captivate audiences like never before.

## Pro Management Software

With business in mind, we have developed a set of 3D software tools to seamlessly manage the HYPERVSN Device and its breathtaking 3D content.

## HYPERVSN WALL

You only get one chance to leave an impression, make sure it's a large one with HYPERVSN Wall. 3D Holographic technology of epic proportions.

- CES 2019 -

## HYPERVSN SOLO

Portable hardware-based product displaying 3D visuals 56cm in size (Solo M) or 75cm in size (Solo L). Available in Solo Classic for single-unit displays and Solo Cloud for multiple units across multiple locations.
